Assistant Professor

---

Date: 12<sup>th</sup> January, 2016

Dear All,

### **Subject: Invitation to participate in OpenFOAM Symposium**

OpenFOAM is a free and open source Computational Fluid Dynamics (**CFD**) toolbox which is used widely in the field of engineering, both in industry and academia.

The Free and Open Source Software for Education (FOSSEE) team at IIT Bombay is conducting a one day symposium on OpenFOAM. The main objective of the symposium is to facilitate the interaction between experts in the field of OpenFOAM and the beginners. The symposium will feature talks and discussions by the eminent users and developers of OpenFOAM from both industry and academia.

We welcome all students and faculty of your institute to attend this symposium and benefit.

The details of the symposium are as follows:

**Date:** 27 February 2016

**Time:** 9:00 am to 6:00 pm

**Venue:** LCH, IIT Bombay

For more details about the symposium, please visit <http://fossee.in/conference/cfd-symposium>.

As we have a limited number of seats, we urge you to register at the earliest.

We also request you to display the enclosed poster on the institute noticeboards.

Thank you and Regards,

Prof. Shivasubramanian Gopalakrishnan

PI, FOSSEE, IIT Bombay
